of the Sverdlovsk Region

---

Dear Colleagues,  
We are pleased to invite you to the 5th International Scientific  
Conference “Digital Transformation in Industry: Trends,  
Management, Strategies” (DTI2023)

---

**Purpose of DTI Conference:** evaluate trends and prospects for digital transformation in industry and industrial markets, create an idea of introduction mechanisms for digitalization processes, and substantiate successful strategies of digital transformation in sectors and at industrial enterprises.

**In 2023, DTI Conference** focuses on Industry 5.0 – a new paradigm of industrial development related to the humanization of technologies, resilience and sustainable development of industrial ecosystems. Industry 5.0 is not a new technological revolution, but a value-oriented initiative that stimulates technological transformations in order to ensure a significant increase in the welfare of humanity.

**October  
25-27, 2023**

**The Conference consists of the business and research modules.**

**The business module** in the form of a round tables will include a discussion and exchange of best practices of digital transformation of industrial enterprises. Three round tables are planned to be held within the framework of the conference:

1. Effective models of digital transformation
2. Digital transformation in the context of ensuring technological sovereignty
3. Digital transformation and industrial productivity growth

**The research module** « From Industry 4.0 to Industry 5.0: challenges and prospects » will include the topic discussions and workshops concerning the broad issues of digitalization of industry and economy.

**Some business and scientific events will be held in leading scientific organizations and partner universities in many cities.**

**The main scope is the following:**

- Humanization of industrial technologies;
- Cross-industry potential of Industry 5.0;
- Digital technology and industrial solutions markets;
- Industry 5.0 «windows of opportunity» for countries, regions and cities;
- The best practices of digital industry transition;
- Strategies and models of digital transformation of industrial companies;
- Transition from industrial to cyber-social ecosystems;
- Industrial policy in the conditions of Industry 5.0;
- Environmental and social values in the context of Industry 5.0;
- Technological sovereignty and digital transformation of industry;
- Humanization in value chains;
- Industry 5.0: Transition from personnel costs to competency investments;
- etc.

**Experts in economic, technical and engineering sciences are welcome to participate in the Conference.**

---

#### **Location**
