

DIGITAL TRANSFORMATION IN INDUSTRY: TRENDS, MANAGEMENT, STRATEGIES – 2024

Institute of Economics of the Ural Branch of the Russian Academy of Sciences
supported by
Ministry of Digital Development and Communications of the Sverdlovsk Region
Ministry of Industry and Science of the Sverdlovsk Oblast
Sverdlovsk Regional Union of Industrialists and Entrepreneurs
Commission for Science and Development of the Digital Economy
of the Public Chamber of the Sverdlovsk Region

CALL FOR PAPERS

Dear Colleagues!

From 2024, the Conference **Digital Transformation in Industry (DTI)** will switch to the format of **Science Biennale**.

Our purposes are the same. **However, we changed the communication format** enable the practitioners and researchers to accumulate more applied experience and scientific results to present at the new international platform of **DTI Science Biennale**.

Purpose of DTI Science Biennale:

evaluate opportunities and prospects for digital transformation in industry and industrial markets, create an idea of introduction mechanisms for digitalization processes, substantiate successful strategies of digital transformation in sectors and at industrial enterprises.

Two-years cycle of **DTI Science Biennale** includes

Annually

publication of Proceedings and Special Issues focused on the topic of DTI Science Biennale

Every two years

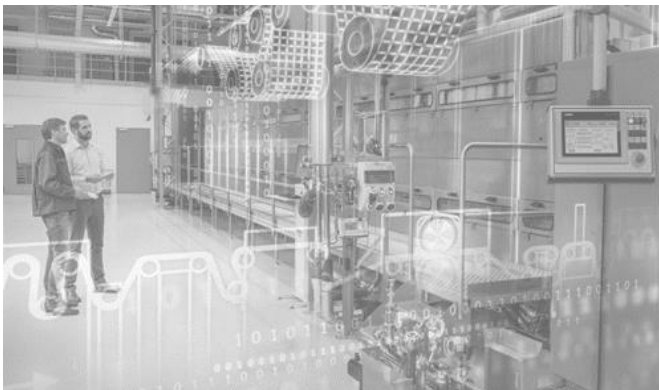

Scientific Conference, Expert Round Tables and Discussion Sessions

Two-year cycle of DTI Science Biennale is focused on one topic

In **2024** we will prepare and publish DTI Science Biennale Proceedings, in **2025** will organize a large-scale face-to-face meeting of scientists, practitioners and experts in various cities of Russia and the world.

The new two-year cycle of **DTI Science Biennale (2024-2025)** is focused on the assessment of the Artificial Intellect (AI) development in industry as the main trend of digital transformations in the coming decades.

In 2024, we invite you to publish in Proceedings and a Special Issue of DTI Science Biennale

- Special Issue of “**Lecture Notes in Information Systems and Organisation**” by Springer indexed in **Scopus (Elsevier)**. Publication fee is on <http://dti-conf.ru>
Publication in English.
- **Conference Proceedings “Digital Transformation in Industry: Trends, Management, Strategies”**, indexed in RISC. Publication is free. **Publication in Russian.**

Requirements and paper formatting guidelines are provided on the Conference website <http://dti-conf.ru> and in the online submission system <http://conf.uiiec>. Video-presentation of papers is needed for publication.

Papers submission deadline is December 1, 2024

The discussion of video-presentations will be held on December 16-17, 2024

The main scope of the papers in 2024 is:

- directions of use AI in industry;
- cross-industry potential for the use of AI;
- AI technology markets for industry;
- best practices of digital transformations in industry;
- best regional practices for using AI in industry;
- strategies and models of digital transformation of industrial companies;
- industrial policy priorities for digital transformation;
- environmental and social values in the context of digitalization in industry;
- technological sovereignty and digital transformation of industry;
- human capital, digital skills and labour market
